

## BUILDING CONFIDENCE & INDEPENDENCE FOR CHILDREN WITH DISABILITIES

In June 2013, we funded two day trips via **Fundays** to Drayton Manor Park for children with physical and learning disabilities, from four special schools in Nottinghamshire.

As well as having fun (which is good enough reason in itself!), there are some more constructive benefits as well:

- Improving the self-confidence of the children who went on the trips, making it less daunting for them to go out in circumstances that may be out of their normal routine
- Increasing social awareness
- Increasing the aspirations of the children
- Improving communication skills through social interaction with new people

You can find out more about **Fundays** here...
